

The Guide to Latin America Pension Funds sm

Service Packages

The Guide to Latin America Pension Funds service truly offers a one-stop source to Latin America's booming pension funds industry!

The service consists of a series of data files in Excel format providing detailed time series data on hundreds of the region's pension funds' total assets, asset allocations and assets' growth rates, external asset managers information and key executives' contacts information, organized by country, as well as series of reports summarizing the current investment context and regulations facing pension funds in each country, including an update service.

The Guide service offers this information in a variety of affordable service packages, ranging from individual country data files and reports, through packages covering either the Major Markets or Minor Markets, to a package covering all markets.
